WORKING WITH RACHEL

“ Rachel Matthews has developed into a key member of our project team. Her approach to the execution of HKS's role on this project has been superb. I have enjoyed watching her capabilities, skills, leadership, and confidence grow throughout the life of this project. She has been willing to tackle any challenge, from holistic project redesigns to helping to respond to AHJ plan review comments. Rachel also has a unique ability to learn and teach simultaneously, which has been enormously helpful in developing the project, especially with the numerous redesigns and constant change. ”
- Josh Kehrwald, JLG Architects, Client for Altru Replacement Hospital
